The Mayor and Council of the Municipality of Central Elgin feel that where possible, it is important to keep residents informed of events and projects within the Municipality of Central Elgin. This goal was set by Council in 2007 and as a result a specific committee of Council was struck to review and recommend to Council different initiatives that could be taken to assist in keeping Central Elgin Ratepayers informed. Some of the initiatives that have been implemented to date are:

- Improved Central Elgin Website ([www.centralelgin.org](http://www.centralelgin.org))
- Council Highlights page on Central Elgin Website. This page gives browsers the ability to receive factual information regarding the dealings of Council. The municipality strives to have this information available for ratepayers within 2 business days from the Council meeting.
- Creation of the “**CE Buzz**” Ad. This ad notifies of any upcoming public meetings, position openings, tenders, and Council initiatives. These adds are published weekly in the St. Thomas Times Journal, Aylmer Express, Dorchester Sign Post, and Biweekly in the Lake Erie Beacon.

While these initiatives have provided additional venues for communication, the municipality would like to build on these past successes.

If you would like to receive updates via email on projects, Council initiatives etc. please complete the form above and drop it off prior to leaving the meeting or mail it to the municipal office at the address noted above.
